# SPECIAL EDITION FEATURES & OPTIONS

# MULTICLEAN™ SYSTEM

Always clean, always warm, always inviting. The MultiClean™ System is customizable allowing proper circulation in combination with cleansing Antimicrobial Filtration, providing spa water that is maintained efficiently and effectively.

## ANTIMICROBIAL FILTRATION

The Antimicrobial Filtration is designed to inhibit odor, mold and mildew on the surface of the filter cartridge. The Multi Zone™ system is designed to circulate water through these Antimicrobial cartridges. This will ensure your spa water has been properly filtered.

## MULTIZONE™ OZONE

Ozone, a natural sanitizer, will help in providing a better soaking atmosphere in your spa water. The MultiZone™ ozone generator is standard on your Special Edition Spa.

## CUSTOM CIRCULATION SYSTEM

Special Edition models have Customizable Circulation Cycles designed for your lifestyle. This system can circulate and filter thousands of gallons of water using up to four different circulation cycles.

## Special Edition™ Operations Center

The Operations Center contains all the programmable spa functions, while the Horizontal Mount Heater thermostatically controls the warming of the spa in the most efficient way possible.

# THERMAL BOND™ INSULATION SYSTEM

The Thermal Bond™ Wrap Insulation System is standard on all Special Edition models and utilizes three key components in providing efficient heat retention and lower operating costs. First and foremost is the spa cover that seals in the heat from the top. Secondly we use the Thermal Bond™ Wrap Insulation to retain warm air that is created inside the spa cabinet. Thirdly, the sealed base helps keep warm air in and cold air out of the bottom of the spa cabinet. These three components allow you to be soaking in a spa that is designed to be ready when you are.

## THERMAL BOND™ FULL FOAM

Thermal Bond™ Full Foam is designed as an optional upgrade insulation. This system provides a higher level of heat retention inside the spa cabinet. Ask your Dealer about model availability.

## MULTIWEATHER™ EXTERIOR

The MultiWeather™ exterior is designed as a low maintenance and durable product. It is designed for easy care while continuing to look great for years to come.

# FEATURES & OPTIONS

## SARATOGA LED LIGHTING SYSTEM

Our Saratoga LED Lighting system is a standard feature on the Special Edition Line. This LED System uses key locations throughout the spa, offering an array of bright digital colors and sequences to increase your spa use enjoyment.

## DUOTONE™ JET ACCENTS

Duotone™ Jet accents are standard features on the Special Edition Hot Tub. They provide a modern look highlighting the spa's appearance.

## SARATOGA SOUNDS™

Enjoy music in the comfort of your spa with Special Edition's optional Bluetooth Streaming and Dual Speaker Systems. Ask your dealer about model availability.

### LED WATER FEATURE

These streams of cascading water enhance the spa's atmosphere. Special Edition offers LED Water Features standard on most models. Ask your Dealer about availability.

### MULTIZONE™ OZONE GENERATOR

Special Edition Spas use a MultiZone™ ozone generator. This sanitizing feature creates a more comfortable soaking experience.

YOUR AUTHORIZED SPECIAL EDITION DEALER IS:

All sizes are approximate. Saratoga Spa and Bath® Co., Inc reserves the right to make changes in product characteristics, standard equipment supplied or available at any time without notice. Not all features are available on all models. International 50 Hz models may vary in specifications and features. Models with international specifications are only available through international distributors. All spas must be wired in compliance with owners manual. Power Massage® is a patented feature of Saratoga Spa and Bath® Co., Inc (4953240) (S086595) (S752300) (S351856) (G185757) (G182303) (D431303) (S067228) (S010699) (CFE#4860392) (G182303) Entertainment systems and other optional features are not offered with the UL® listing or standard warranty and are not available on all models. See your Saratoga Spa® dealer for details.

**WARNING:** The consumer product safety commission has stated that water temperature in a spa or hot tub should not exceed 104° F. Immersion in water in excess of 104° could be hazardous to your health. Children, aged persons, persons having medical problems and pregnant women should consult their physicians before using a spa or hot tub. Spas or hot tubs should not be used by persons under the influence of alcohol or by persons taking medications that cause drowsiness.
